

*Lechuza*®

A perfect home  
for magnificent plants

## LECHUZA® – Convincing planter design for home and patio

The new Outdoor Collection will catch your eye with its design and impress you with its exceptional functionality.

Dear customer,

Trendy, robust and absolutely practical are characteristics that describe all of the planters in the LECHUZA Trend Collection. Gardens become an even more beautiful place to reside when plants find their home in LECHUZA.

And we have even more exciting surprises for you this coming season with new planters and features such as the new BALCONERA balcony brackets, which secure to railings in no time, or TRIO, the new and versatile trough planter. TRIO is perfect as a room divider, windbreak and privacy screen or even as a stylish bed for gourmet vegetables on your patio.

As always, every planter is equipped with the proven LECHUZA sub-irrigation system. These and many more surprises await you on the following pages. We hope you enjoy our new range of products!

Sincerely,  
Your LECHUZA Team

### LECHUZA Planters

- Easy to transport
- Shatterproof, impact-resistant and frostproof
- UV-resistant
- Integrated overflow function for outdoor use

CUBICO

CUBE

2009

## Cottage

# Stylish contours with a robust surface structure

The Cottage family features a natural wicker look and offers numerous combination possibilities for harmonious planter arrangements on your patio or in your garden.

### TRIO Cottage

This innovative room divider with trellis is also ideal as a mini vegetable bed.

### CILINDRO Cottage

The Cottage range now includes the modern column-shaped planter with a new surface design.

### CUBICO Cottage

The popular CUBICO design with the robust Cottage structure for outdoors is convincing in both form and function.

### CUBE Cottage

CUBE's stylish, elegant and virtually weightless appearance balances even the tallest plantings.

TRIO Cottage 30 – Hedera helix

## Versatile trough planter

The new TRIO planter will impress you with its many practical details and inspire your creativity.

With a shape that matches CUBICO and BALCONERA, TRIO Cottage is a versatile trough planter for patios and balconies:

- **Simple precultivation of plants.** Three interchangeable plant liners allow you to precultivate plantings with ease. Use the sturdy recessed carrying handles to conveniently carry the three precultivated TRIO plant liners to the desired location and set them in the TRIO planter.
- **Perfect for overwintering.** Plantings that are not frostproof can be moved to a dry, bright location for the winter months.
- **An elegant privacy screen.** LECHUZA TRIO lets you create beautiful privacy screens for your patio. Add the trellis (patent pending), which you can easily attach to the planter, and the right plant and you have an original screen and windbreak in no time.
- **Robust surface structure.** TRIO's robust wicker design is UV-resistant and extremely durable: And the high-quality polypropylene even stands up to frost without breaking.

TRIO plant liners

- Easy to interchange
- Easy transport even for tall plantings

TRIO trellis

Trellis for TRIO Cottage with three adjustable cross braces and 20 plant clips

TRIO Cottage 30 – Lillium

TRIO Cottage 30 – tomato plant

The three TRIO plant liners, each with a one-gallon water reservoir, ensure a well-balanced water supply that is essential for thriving plants, especially tomatoes.

TRIO Cottage 30 – Myrtus Tarentina

BALCONERA Cottage 80 – Aster novi-belgii, Antirrhinum majus, Platycodon grandiflorus

## BALCONERA brings balcony dreams to life

BALCONERA cares for your balcony plantings with a number of practical features.

- **Robust surface.** The impact-resistant Cottage structure stands up to the elements.
- **Dependable water supply.** BALCONERA has an integrated water reservoir that reliably provides your plants with water even on hot days.
- **Complete watering control.** The water level indicator always shows you when your plant needs water.
- **Easy to plant.** First mount BALCONERA, then lift the pre-planted liners into the balcony box with ease. No more heavy lifting of bulky potted balcony boxes.
- **Perfect for overwintering.** Move your plants in their plant liners to a suitable location with sufficient light for the winter – and decorate your BALCONERA with branches and twigs, for example.

**NEW:** LECHUZA balcony brackets

BALCONERA interchangeable liner

The first balcony box with interchangeable plant liners.

BALCONERA balcony brackets

- Hidden from view
- For mounting on balconies and walls
- Available in white and black

BALCONERA Cottage 80 – Petunia, Matthiola, Heliotrop, Lavendula

BALCONERA Cottage 50 – Rosa

BALCONERA Cottage 80 – Chrysanthemum indicum

CILINDRO Cottage 32 – Pennisetum setaceum

#### CILINDRO plant liner

The sturdy carrying handles let you effortlessly lift the planting out of CILINDRO.

CILINDRO Cottage 32 – Veronica

CILINDRO Cottage 32 – Lavendel

## Elegant and natural

The popular Cottage design gives the CILINDRO planter a very graceful appearance.

The Cottage family is growing: CILINDRO's modern shape now has a new look that opens up a world of possibilities for creative arrangements on your balcony and patio using LECHUZA's practical outdoor planters. CILINDRO planters are not just attractive. They also have many other convincing attributes:

- **Easy to plant.** The interchangeable plant liner with sturdy carrying handles simplifies changing any planting. Even overwintering is a snap.
- **No waterlogging.** Simply remove the red drain plug in the bottom of the planter when used outdoors. The clear excess rainwater drains, while the integrated water reservoir stays full and continues to provide your plants with water.

CILINDRO Cottage 32 – Solanum

CUBICO Cottage 40 – Agave Ferox

CUBICO plant liner

With rain overflow function  
for outdoor use

CUBICO Cottage 30 – Thunbergia

CUBICO Cottage 40 – Hydrangea

## Indestructibly beautiful

Tucked away inside the CUBICO planter, the LECHUZA sub-irrigation system dependably supplies your plants with water, just as nature intended.

CUBICO Cottage is not your typical wicker planter: It perfectly combines exceptional column planter design and the unmistakable CUBICO silhouette with an appealing surface structure for a planter that is not only beautiful but extremely durable as well. This makes CUBICO Cottage planters the first choice for outdoors. This high-quality planter is at home anywhere style and outdoor durability are a must.

- **Indestructible.** The durable surface structure is perfect for balconies and patios.
- **Stands up to the elements.** Direct sunlight or cool temperatures in winter, even frost, will not harm CUBICO Cottage.
- **Consummate design.** Every CUBICO features perfect contours, premium quality craftsmanship and is made in Germany. CUBICO planters are completely watertight and will not tip over thanks to their sturdy design.

CUBICO Cottage 40 – Begonia betulia

CUBE Cottage 40 – Liriope muscari

## CUBE plant liner

The sturdy carrying handles disappear back into the liner after use.

## CUBE coaster

- Makes CUBE mobile, even outdoors
- Carries up to 330 lbs

CUBE Cottage 40 – Cupressus 'Goldcrest'

## Stylish design for your plants

Compact yet graceful: If you appreciate the extraordinary, CUBE is your first choice.

CUBE gives the impression of weightlessness. This compact cube-shaped planter with a linear wicker look stands for modern design; the graceful bottom arch presents plants as if they were effortlessly suspended from the ground.

- **High plant volume.** Even larger plants have plenty of room in the CUBE 40 plant liner.
- **Modern surface.** The innovative structure fits well with both the country house style and modern loft designs.
- **Mobile thanks to rollers.** The coaster is easy to slide under the CUBE planter even when it's planted. It disappears under the CUBE planter and makes it and its planting mobile.

CUBE Cottage 40 – Agave Desmettiana

## Color

# Convincing planter design in modern colors

This uncomplicated planter from the Trend Collection spices up balconies and patios with fresh colors. Summer is on its way!

### CUBICO Color

CUBICO's classic silhouette in fresh colors.

### CLASSICO Color

With or without interchangeable plant liner: CLASSICO Color always finds the perfect place for your favorite plants.

CLASSICO Color 35 – Erica gracilis

**CLASSICO coaster**

The coaster easily disappears even under potted planters (available for CLASSICO Color 43).

**The new interchangeable liner**

Easily repot and change the planting

CLASSICO Color 28 – Bougainvillea

## Magnificent plant growth in colorful CLASSICOs

The CLASSICO Color models come in four sizes and now feature an interchangeable liner and decorative frame handle.

Attractive design and brilliant color in mocha, white, aubergine and cherry: With its subtle style, CLASSICO Color perfectly showcases plants on balconies and patios.

- **Colorful.** Four sizes and four colors add cheer to your balcony.
- **Decorative.** The decorative frame handle in the new CLASSICO Color planters is also a stylistic element that adds appeal to the ensemble.
- **Exciting.** With the interchangeable liner you can see if the roots of your plants have already reached the water reservoir.
- **Interchangeable.** Thanks to the interchangeable liner you can easily repot and change the planting.

CLASSICO Color 35 – Rosa patio

CUBICO Color 40 – Strelitzia reginae

## Elegant planters for outdoors

Tucked away inside the CUBICO planter, the LECHUZA sub-irrigation system dependably supplies your plants with water, just as nature intended.

CUBICO column planters feature a stylish and attractive design. The Color line has a range of bright planters with a UV-resistant surface that stands up to the elements. Their high-quality material can even handle frost and low temperatures without breaking.

- **Versatile.** The CUBICO plant liner is ideal for precultivating plantings and overwintering.
- **Sturdy.** High-quality plastics ensure that the planters retain their shape and sturdiness on patios and balconies for many years to come. You can easily add a weight to the hollow area beneath the liner for added stability when there are strong winds.

CUBICO plant liner

Changing the planting is a snap

CUBICO coaster

Available for CUBICO 30 and 40

CUBICO Color 40 – Poinsettia Variegatum

CUBICO Color 40 – Buxus sempervirens

CUBICO Color 30, 40 – Juniperus

# What makes planters from LECHUZA different? Everything.

LECHUZA planters are not just aesthetic.  
They are also beautiful on the inside.

## The original LECHUZA sub-irrigation system

- LECHUZA's original sub-irrigation system turns plant care into child's play.
- Never overwater your plants again
- Up to 12 weeks without further watering

**1**

### Water level indicator

Ensures complete watering control

**2**

### Water supply shaft

Makes adding water and liquid fertilizer easy

**3**

### LECHUZA-PON as a separating layer

Perfectly controls the water supply to the plants

**4**

### Separator

Forms the water reservoir in the bottom of the planter

**5**

### Drain plug

Is removed to allow excess rainwater to drain when used outdoors.

## LECHUZA-PON plant substrate

LECHUZA-PON is a structurally stable plant substrate that has optimum properties for plants and is the perfect alternative in places where organic soil cannot be used. LECHUZA-PON as a plant substrate: Used in combination with the LECHUZA sub-irrigation set, your plants benefit twofold.

Composition:  
zeolites, pumice, lava  
and depot fertilizer

### Absolute quality "Made in Germany"

LECHUZA planters are manufactured and finished at the German production site in Diethenhofen, Franconia, under the highest production standards.
